

Custom Pet Portraits

Stylized portraits starting at \$75 USD

How it works

-Contact me via email at artofryancox@gmail.com

-Please attach a *minimum* of three, good quality photos of your pet. At least one of them should be a front or $\frac{3}{4}$ view of their face for me to base the portrait on. Be sure to include a short description of your pet (eg: breed, eye color, any notable personality traits you'd like the drawing to reflect, etc.).

-Submit payment upfront via PayPal @artofryancox.

-Allow 1-5 weeks for overall drawing process to complete.

-When the drawing is complete, a watermarked version will be sent to your email for your approval. If you think everything looks good, I will email you the final drawing in JPEG and PNG format, with the watermark removed, as well as an invoice for your purchase.

PLEASE NOTE

-All portraits are 8"x10" unless client requests otherwise.

-I reserve the right to post your drawing on social media or to use in a portfolio as I see fit. Totally private commissions will cost an extra \$50 USD.

-If you post/share my drawing anywhere online, please credit me as the artist

-I mostly draw cats and dogs, but I am open to drawing any animal, regardless of species. My price will not change.

-I will draw as many animals in the portrait as you like, but every additional animal will cost an additional \$25 USD. Also note that the more animals there are, the bigger the piece will have to be to accommodate.

-If you are not satisfied with the initial drawing I send you, you are allowed a total of no more than THREE rounds of revision. If after three revisions you are still not satisfied, you will be issued a full refund.

-These commissions are for your personal use only. You do not have my permission to sell or otherwise make any profit off of my work.
